

Kleenguard™ A20 Breathable Particle Protection Shoe Covers (36885), Serged Seams, Fully Elastic, 6.5" Height, One Size, White, 300 / Case

36885

Features & Benefits

Kleenguard Personal Protective Equipment (PPE) enables rather than inhibits—allowing for maximum productivity and safety for you and your employees. Kleenguard A20 Breathable Particle Protection Shoe Covers are designed to move with you – and your employees – while helping protect against hazardous and non-hazardous dust. These protective garments offer superior particle holdout coupled with unmatched comfort attributes. The A20 fabric is comprised of five layers of stacked barrier protection (SMMMS) against hazardous particles. This shoe covers feature serged seams and are fully elasticized for a formed fit. They are 6.5" tall and are one size fits all. They are a popular choice for dusty environments such as laboratories and remediation, as well as pesticide applications. Making the right Personal Protection choice is difficult. Perform with distinction with Kleenguard Personal Protective Equipment (PPE).

- Kleenguard A20 accessories are designed to help protect against dirt, grime and dust and are made with breathable Microforce barrier fabric
- Features serged seams and is 6.5" tall
- The shoe cover is fully elasticized for a formed fit
- Passes NFPA 99 for antistatic (anti stat) materials
