4MM FORK PLUG NICKEL PLATED BLUE, BAG OF 5

Stock No: 2080277

Technical Specifications:

Model:	2080277:
Length	49.4mm
Contact Material	Brass
Insulation Material	ABS
Current Rating	19A
Voltage Rating	30VAC-60VDC
Contact Plating	Nickel plated
Colour	Blue
Gender	Male
Connector Type (A)	Fork plug
Termination Method	Transfer

Features & Benefits:

- Fork Plug Connector
- Colour = Blue
- Supplied in Bags of 5

RS Pro brings you a range of quality fork plugs (also known as spade connectors) which offer a convenient, yet reliable way to connect a single wire to an electrical system via a stud, screw or bus bar, for example. Plugs or connectors terminated in this way help prevent frayed wires and offer a high level of protection, especially in situations where vibration is a factor. Connecting cables terminated with a fork plug is fast and easy as the screw or bolt can be left partially screwed in when a terminal is attached or removed.
