

17.3" Laptop Backpack with Removable Accessory Organizer Case - Professional IT Tech Backpack for Work/Travel/Commuter - Ergonomic Computer Bag - Durable Ballistic Nylon - Notebook/Tablet Pockets

Product ID: NTBKBAG173

This laptop backpack is designed and built with IT Professionals & Technicians in mind. For short or long-distance commutes, this travel-friendly 17.3" IT backpack can carry your laptop and tablets with padded pockets for added drop protection. Equipped with an accessories case that can be easily removed and fits all of your IT accessories, including your laptop charger, display adapters, wireless mouse, tools, measurement instruments, and more. This laptop bag and accessory case is constructed of heavy-duty ballistic nylon and has multiple storage pockets to keep your items organized.

The removable accessories case (10.5in x 5.25in x 3in) is stored in its own compartment in the backpack and was designed to be easily accessed using the lower side pocket of the backpack so you don't have to search through or displace any items in your bag. It is designed with the same ballistic nylon as the backpack to ensure durability. The hook and loop dividers can be positioned for added protection around your accessories, and the bungee grid is perfect for storing your smaller devices such as tools, IT equipment, and cables. Once the case is removed, the main compartment of the laptop bag can be extended (by collapsing the hook and loop tied wall) to provide you with more room to store any other essentials required for a short or long-term trip.

This IT backpack for work/travel/commute is designed for both short and long-distance travel and has an integrated trolley sleeve that fits perfectly on your rolling luggage, letting you bundle your bags together. It is contoured to protect your shoulders and back and features breathable padding and adjustable shoulder straps to help relieve any pressure on your body.

This notebook backpack is backed by a StarTech.com limited lifetime warranty, and free lifetime technical support.

Certifications, Reports and Compatibility
