RS PRO ESD Phillips, Slotted Screwdriver Set 6 Piece

RS Stock No.: 864-0861

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

A professional set of precision ESD Anti-Static screwdrivers which have been designed for use on sensitive electronic components by allowing controlled dissipation of static build-up. Electrostatic discharge (ESD) is the release of static electricity when two items come into contact with each other. For example, you can have a static shock after walking across a room and touching the metal doorknob.
