Product Overview & Guides

KleenGuard™ Personal Protective Equipment (PPE) enables rather than inhibits – allowing for maximum productivity and safety for you and your employees. When you have a sensitive job to tackle – like working in a crime lab, crime scene cleanup, forensic uses, embalming, research and emergency medical response – the KleenGuard™ Chemical Resistant Suit (A60 Bloodborne Pathogen & Chemical Splash Protection Coveralls) is a great solution. They are designed to protect the wearer, as they pass the ASTM F1670/F1671 test for penetration of blood, body fluids and bloodborne pathogens, and they provide protection against some chemicals (chemical protection suit). They feature the Reflex Coverall Design, which provides a fuller cut for added range of motion, are 7.5 less likely to rip out (vs. ANSI minimums), are 6% longer body length and 12% more chest room. This model comes with a zipper front (with storm flap) and elastic back, wrists and ankles. Making the right Personal Protection choice is difficult. Perform with distinction with KleenGuard™ Personal Protective Equipment (PPE).

24 Blue XL KleenGuard™ Chemical Resistant Suits (A60 Bloodborne Pathogen & Chemical Splash Coveralls) per case

Passes ASTM F1670/F1671 testing for penetration of blood, body fluids and bloodborne pathogens

Reflex Coverall Design offers excellent fit and freedom of movement; this model has an elastic back and elastic wrists and ankles

Seamless front to provide more protection in the primary exposure area, with taped storm flap and serged seams

Features three layer fabric construction features a middle layer of microporous film that allows heat and sweat vapor to escape, keeping the worker cool and outer layer film barrier against tearing and abrasion; Passes NFPA 99 for antistatic materials

About KleenGuard™

We understand how workers move, work, stretch and sweat. We call it human-centric engineering. And it's this industry-changing technology that separates KleenGuard® brand protective clothing, eye protection and hand protection from other PPE.
