## RS Pro Alkaline 9V Battery

RS Stock No: **826-4435**

### Product Details

RS Pro 9 V alkaline battery provides the longest service life for high drain devices. The battery will last more than twice as long as heavy duty batteries in certain applications. Alkaline batteries get their long life from their unique construction and the purity of the materials used. The battery depends on internal chemical reactions to produce power. The chemical reactions of the battery is accelerated by high temperature and retarded by low temperature. Therefore to minimise power loss during storage, batteries should ideally be stored at a maximum temperature of +25°C.

### Features and Benefits

- Provides the longest service life for high drain devices
- Will last more than twice as long as heavy duty batteries in certain applications
- Unique construction
- Depends on internal chemical reactions to power up
- Works with various items such as MP3 players, CD players, toys, lights, pagers, medical devices, IT accessories, industrial torches and cameras etc

### Specifications:

Also Known As	6LR61
Chemistry	Alkaline
Size	9 V PP3
Terminal Type	Standard
Dimensions	26.5 x 48.5 mm
Nominal Voltage	9 V
Size	9 V PP3
