

Emerson™ Universal TXV Connect Kits include our latest generation thermostatic expansion valves plus Chatleff, Aeroquip and external equalizer adapters that are easy to install in all residential air conditioning systems.

Features

- Balanced port TXV with ODF connections and an internal check, bulb strap, and Chatleff, Aeroquip and external equalizer adapters all in one box
- Fits all systems regardless of manufacturer
- R-410A and R-22 kits available in 1-1/2 to 5 ton capacities
- Easy field replacement of fixed orifice for increased efficiency
- Adapters have extended ends for easy installation

Individual adapter kits

Specifications

- Maximum Working Pressure (MWP): 700 psig
- UR/CUR File number (valves): SA5312

TXV Connect Kits

Model	Refrigerant	Capacity(Tons)*	Order # (PCN)
TXV+CONNECT 2-1/2TR-22	R-22	1-1/2 to 3	066657
TXV+CONNECT 5TR-22		3-1/2 to 5	066658
TXV+CONNECT 1-1/2TR-410A	R-410A	1-1/2	066660
TXV+CONNECT 2TR-410A		2	066661
TXV+CONNECT 3TR-410A		3	066662
TXV+CONNECT 4TR-410A		4	066663
TXV+CONNECT 5TR-410A		5	066664

* For extended capacity tables, use NXT series for R-410A applications and A-Series for R-22

TXV Adapters

Model	Description	Order # (PCN)
