# RS Pro Submersible Water Pump, 750W

RS Stock No: 124-1949

### Specifications:

Overall size in 22x 33x 37cm  
Vortex impeller (plastic)  
Rate supply 750W  
Rate Voltage 230V/50Hz  
Max flow rate 13000 l/hour (216 l/min)  
Max submersible depth 7M  
Protection type: IPX8  
Plastic pump body  
Output connection pipe: 1" (25mm); 1-1/4" (32mm);  
1-1/2" (40mm)  
Grain size 35mm  
10M cable  
BS plug  
Max temperature of liquid 35°C

### Features and Benefits

- Clears dirty water and is suitable for general duties.
- High volume water pump is ideal for flooded basement, rain-soaked foundations, bailing out a boat or draining container.
- The float switch turns the pump on and off automatically with changes to the water level.
- Comfortable carry handle can be used as a rope holder.
- It can be fully submerged and works in depth of up to 7m.
- 3 Stepped adaptor and elbow, fitting 1" (25mm); 1-1/4" (32mm); 1-1/2" (40mm)
