RS Pro 4 Colour Ultra Thin Back Probes

Product Details

4 Colour Ultra Thin Back Probes.

0.7mm (0.028") O.D. Back Probe Pins. Made from durable spring steel.

Perfect for connecting to fuel injectors, MAP and TPS sensors, as well as any weather pack seal type connectors.

The modular design is compatible with any industry-standard, 4mm plug whether shrouded or not.

The different colours assists in ease of identification and location of connectors under test.

These are a perfect compliment to any test lead.
