

Datasheet

**Digital External Micrometer,
0-25 mm/0-1 in**

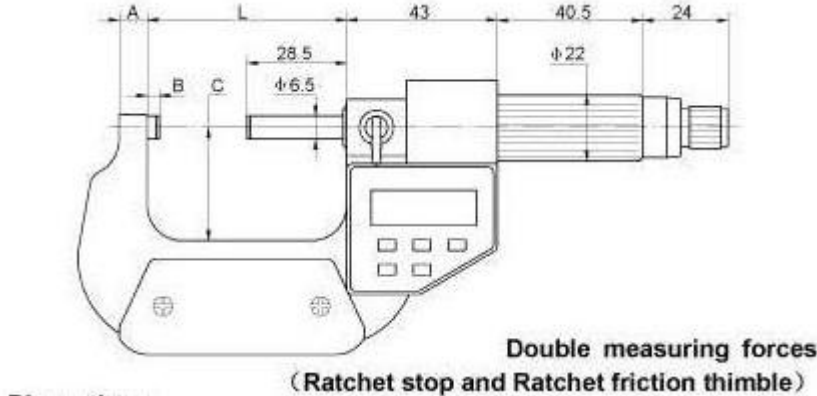

RS Stock number [705-1216](#)

Features

- Digital Electronic LCD Display micrometers, for workshop or maintenance use.
- Protection level IP54
- Display data is origin data of absolute measurement after changing battery
- Chrome-plated or painted frame. Carbide measuring faces.
- Criterion DIN863/1/ DIN40050/IEC529
- Supplied with batteries, instruction manual and Polypropylene storage case

Specifications

Accuracy	±0.002 mm
Battery Operated	Yes
Imperial or Metric	Both
Maximum Measurement	25mm
Metric –Imperial Conversion	Yes
Micrometer Type	External
Minimum Measurement	0mm
Resolution	0.001mm

Includes

Power ON/OFF	Yes
Abs. and inc. Conversion	Yes
Metric/inch Conversion	Yes
Data Output	Yes
Origin Data Set	Yes
Clock	Yes
Battery	SR44
Auto Power Off	Yes
RS232 Output Port	Yes
Connecting Cable (Optional)	P1103 or P1104
