RS Pro Closed End Wire Splice Connector, Clear, Insulated, Tin Plated 2.5 → 6 mm²

Product Details

RS Pro Closed End Wire Splices

Closed end wire splices with tin plated copper sleeves and transparent nylon 6.6 insulation. These closed end wire splices are ideal for electrically joining cables or for storing/insulating the ends of spare cables, which may be required at a later date. Choose the correct crimp by adding all conductor cross-sectional areas together (mm²). For suitable crimp tool for these closed end wire splices please see stock no. [253-4583](#).
