Epoxy Mixer Nozzle, 50ml

RS Stock number [512825](#)

Description

Disposable static mixer which ensures superior mixing performance and allows the user to be closer to the work piece.

The square geometry consists of a series of alternating left- and right-hand elements with intermittent flow inverters.

The flow inverters effectively channel the fluids from the walls into the centre of the mixer giving a consistent high-quality mix and reducing adhesive waste.

For use with epoxy resins.

Ideal for use instead of traditional mixer dispensers.

Features

Cost savings due to reduced adhesive waste

Improved service life compared to competitive square mixers

Bell detail fits on standard meter mix manifolds

Specification

• Length	4.03in
• Number of Mixing Elements	10
• Supported Adhesive Type	Epoxy
• Supported Cartridge Size	50ml
• Supported Cartridge Type	Bayonet
• Retained Volume	1.4ml
