

Datasheet

RS Harsh Environment Wire Single Core 25m, 0.5 mm² CSA , Silicone Rubber Insulation 3 A 750 V 16 Strands

RS Stock 359-706

Specification

- In dry rooms, in apparatus, switch and distribution boards, for laying in conduit on and under plaster and on insulating supports above plaster.

Characteristics

- Working voltage – max: 300/500V
- Test voltage – 2000V
- Breakdown voltage – 5000V
- SIA - -60deg / +180deg

Materials

- Silicone rubber
- Electrolytic mono copper
