

10/21-VQ1*1*, Base Mounted Plug Lead Unit Valves, Clean Series

10-VQ valves are ideal for applications requiring high speed, frequent operation, stable response time and long service life. Innovative mounting methods allow valves to be changed without entirely disassembling the manifold. Built-in one-touch fittings save piping time and labor.

- Fluid: air/inert gas
- Ambient and fluid temperature: -10 to 50° C
- Coil Rated Voltage: 12, 24 VDC
- Seal type: Metal, Rubber
