

## Datasheet Stock No. 1864621 RS PRO USB Rechargeable Cree LED Headlight

<b>Technical Data</b> 250 Lumen white Cree LED Additional 2 x side SMD LEDs for Floodlight SOS and Strobe functions 45° Rotating head Adjustable headband LED colour temperature 6500k Super lightweight at only 95g IPX6 water resistant		MODE	342		0
	SPOT BEAM	нісн	250 lm	66 m	6 hrs
		MID	75 lm	38 m	12 hrs
		LOW	12 lm	14 m	93 hrs
		sos →>))			17 hrs
	FLOOD LIGHT	нісн	52 lm	10 m	16 hrs
		low	16 lm	5 m	53 hrs
		STROBE →))			115 hrs

Product Size: Headlight: 47 x 62 x 37mm Product Weight: 95g Battery: Rechargeable built-in 3.7v 1800mAh Li-polymer Charger: Micro-USB cable (Included) Charging time: approx 3 hours (turn product off when charging)

LED charging indicator: red flashing = charging / green light = charged,

Battery level indicator: geen light = >30% / red light = 30 - 5% / red flashing = <5%

## Operation

Spot Beam and Flood light - when ON in either mode, press and hold to switch to the other mode.

Brightness - when in either mode press to cycle through dim and flash settings.

Off - if left in any mode for more than 3 seconds, the next press will turn off. Or cycling through the settings will also turn off.

## **ADVICE & IMPORTANT INFORMATION!**

- Do not look directly at the LED.
- Do not operate in direct sunlight or extreme temperature conditions (below -10°C or above 50°C).
- The LED will become hot when switched on; do not touch and do not place face down on any surface risk of fire!
- Do not use the device if there is any visible damage to the housing or cable.
- Do not use the product in the immediate vicinity of flammable materials or gases.
- Children under 12 years of age should only use the product under adult supervision.
- Before cleaning the product, disconnect the charge cable. Clean with a dry or slightly moist, clean, lint-free cloth and a mild detergent if required. Do not use cleaners that contain abrasives or solvents.
- Do not open, disassemble or attempt to modify the product; this will void any warranty and can be dangerous.
- Improper use or modification is not covered under warranty.
- Ensure the lens does not come into contact with hard/sharp objects; damage to the lens may affect light output.
- To maintain rechargeable batteries, distributors should recharge the battery every 6 months and users should recharge every 3 months if not using for an extended period.
- Fully charge the product before storage.
- The rechargeable battery will reach optimum performance only after several complete charging and discharging cycles.
- Protect the battery from heat, intense sunlight, fire, water and moisture danger of explosion!
- If the battery is damaged, fluids can leak out. AVOID contact as this can lead to skin irritation and/or burns. If skin contact happens, rinse thoroughly with water. If irritation persists, seek medical advice. Also seek immediate medical assistance if battery fluid comes into contact with the eyes.
- Do not dispose of this device in normal household waste. It must be disposed of via an authorised disposal centre or at your local waste disposal unit.
- Please recycle packaging where possible.
- Keep these instructions for future reference or for subsequent possessors.
