

Single Desk-Mount Monitor Arm - Articulating - Heavy Duty Steel

Product ID: ARMPIVOTB

Save desk space and position your monitor for comfortable viewing with this desk-mount monitor arm, made of heavy-duty steel. It features an articulating arm that enables you to tilt, swivel and rotate your screen, to create a more ergonomic workspace and enhance productivity.

Mount your Monitor to Save Valuable Space

The single monitor mount lets you free up space by suspending your display off of your desk. The VESA mount (75x75, 100x100) monitor arm supports a flat-panel display 13" to 34" in size and up to 17.7 lb. (8 kg) in weight.

Rugged Steel Design

With its robust steel construction, the heavy duty monitor arm provides long-lasting performance.

Adjust the Position of your Monitor with Ease

The articulating monitor arm gives you maximum workspace flexibility. You can extend the arm up to 17" (428 mm), swivel 180 degrees and tilt up to 90 degrees to find the perfect viewing angle. The arm offers smooth 360-degree screen rotation, so it's easy to switch from landscape to portrait position. You can also adjust the height of your monitor along the pole to your desired viewing position, to a maximum height of 17.7" (450 mm).

Easy Installation

The desk clamp monitor mount makes it easy to mount your VESA mount display above your desk, using the included C-clamp or grommet mount. For easier mounting, the VESA mount features notches that let you pre-set the mounting screw, then slide the monitor in place and tighten the screw. To help keep your work area free of clutter, the monitor arm also features cable management clips that keep your cables neatly out of sight.

The ARMPIVOTB is backed by a StarTech.com 5-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Create an ergonomic workspace in office environments or your home office
- Rotate your display from landscape to portrait position for web design or coding

Features

- Mount a VESA (75x75, 100x100) compatible display 12" to 34", flat screen, curved or ultrawide, with a max weight of 17.7 lb. (8 kg)
- Landscape-to-portrait display rotation (for use in portrait position, the mount supports ultrawide displays with max width of 29.4"/74.7 cm)
- Articulating arm lets you adjust your viewing angle with 180° swivel, +45°/-45° tilt and 360° rotation
- Arm extension up to 17" (428 mm)
- Height adjustable up to 17.7" (450 mm)
- Adjustable height
