

ICE UV MINI™

Save on Ice Machine Cleaning & Maintenance

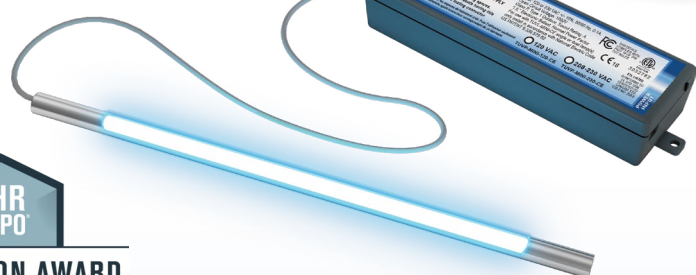

Sterilize Mold & Bacteria

Maintaining countertop ice & water dispensers (sometimes called flakers) has become easier, safer, and more cost-effective with ICE UV Mini™. UV-C light works continuously to sterilize mold, microbial growth & dangerous pathogens that thrive inside the dark, damp, cool interiors of ice machines, ice flakers and water dispensers. The ICE UV Mini™ and ICE UV™ systems are designed to produce just the right amount of UV-C light; enough to sterilize microbial contaminants including mold, viruses & bacteria without damaging plastic materials inside the ice machine.

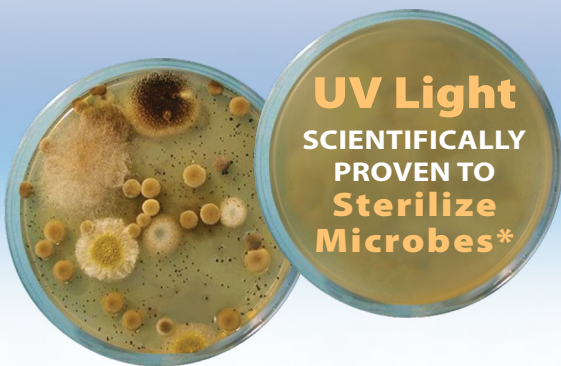

FEATURES

- Mini UV lamps only 9" L x 3/8"D
- 120 or 208-230 VAC hard-wired power supply
- Low-intensity UV light is safe for plastics
- Teflon® lamp sleeves
- Safety Interlock switch
- 1 year guaranteed lamp life

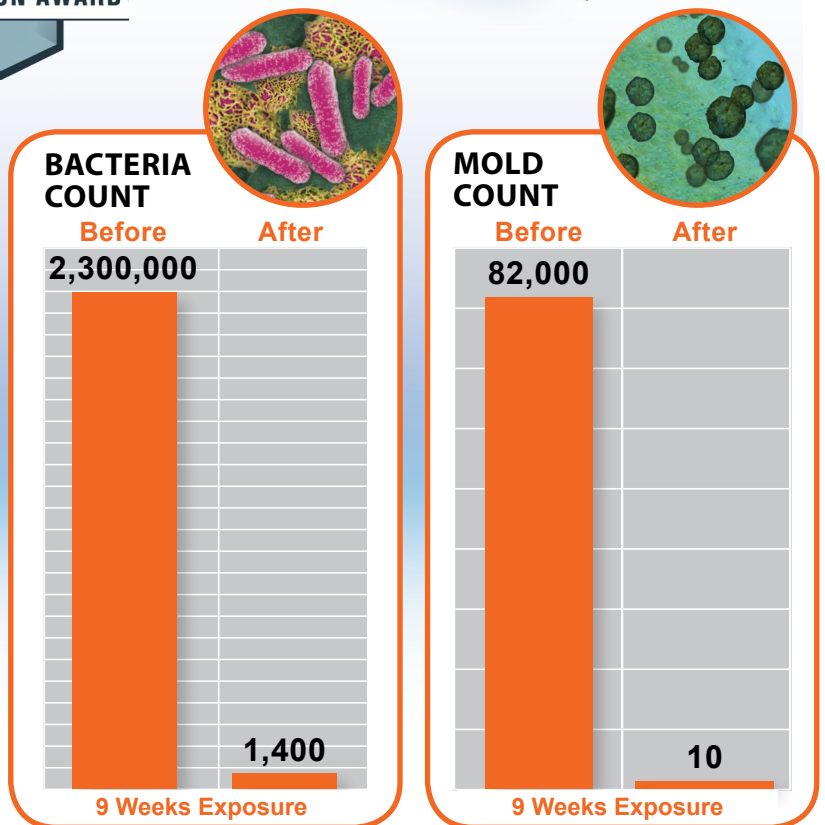

BENEFITS

- Saves money on ice machine maintenance
- 24/7 ice & water dispenser disinfection
- Effective against mold, bacteria & viruses
- Reduces health risks from dirty ice & water
- A green no-chemical technology

UV Light
SCIENTIFICALLY
PROVEN TO
Sterilize
Microbes*

* UVC LABORATORY TEST:
90% of microbes are killed after 10 minutes
99.9% of microbes are killed after 24 hours

FRESH-AIRE UV

ICE UV MINI™

- Saves money on maintenance
- Kills mold, bacteria, & viruses
- Works 24/7 to disinfect ice machine
- Teflon® safety coated UV-C lamps
- Chemical-free disinfection
- Reduces liability risk

ICE UV Mini™ lamps are protected by a Teflon® sleeve to contain damage if the lamp is broken.

Specifications

UV Lamp	254 nm UVC, 10 μW/cm ² @ 1 Meter, 5 mA current, 4 Watts
Dimensions	UV Lamps: 9" L x 0.4" Dia. Power supply: 6" L x 1.5" W x 1.125" H
Weight	0.5 lb.
Electrical	120 or 208-230 VAC hard-wired power supply both 50 / 60 Hz, 0.1 amps
Kits Include	UV-C lamp(s) (TUVL-MINI-CE), power supply, lamp holding clips, alcohol wipe, #8 pan screws, panduit straps, safety interlock & wiring harness, angle bracket(s), warning sticker, manual
Warranty	All parts except lamp: 5 years Lamp: 1 year

FRESH-AIRE UV

ICE UV™

Think Big

For larger ice machines ICE UV Mini's pencil-thin 4-watt UV-C lamp might not be enough. Fortunately there are standard sized ICE UV™ models for every size of ice machine. Systems are available with up to four 6.75" 10-watt UV-C lamps. Commercial sized 32" lamp systems are also available.
