

Arrest

Bacterial Enzyme - Uric Acid Eliminator

Arrest removes uric acid odors the natural, bioenzymatic way. This formulation features select bacterial strains which attack uric acid soils, stains, and odors found in restrooms. Use as part of routine cleaning around the base of toilets and walls, grout, and floors around urinals.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

After routine restroom cleaning:

1. Spray directly on and around urinals, toilets, sinks, floors and walls.
2. Allow solution to remain on surface - let bacterial enzymatic action work.
3. Do not rinse or remove.

Drain maintenance in restrooms:

1. Apply 2-4 oz. per drain.
2. Allow product to remain in pipes and drains for several hours before using.
3. Repeat procedure as needed.

FAST FACTS

- Attacks and eliminates odors
- Noncorrosive
- Safe to use on grout and metal surfaces
- Residual effectiveness
- Penetrates embedded odors in grout lines
- Fresh, pleasing scent after use
- Ideal for odor control in waterless urinals
- Effective in portable and vacuum toilets
