Datasheet

RS PRO   USB digital microscope

Stock number: 1964074

Specification :

2Mega pixels (interpolated to 5M)
still and video 1920x1080
focus range manual focus 10mm-500mm
frame rate max 30f/s under 600Lus brightness
magnification ratio 20x to 200x
8LED
PC interface USB2.0
operation system: window 7/8/10, MAC 10, 12
bundle software: microcapture plus with measurement
product size in 110x33mm
include microscope
metal stand
software CD
manual

feature :
light adjustable :built –in 8LED lights, you can control the light brightness easily with the LED dimming wire control knob shine through a diffuser, the LED light is soft and not dazzling across the object being viewed

 easy to use & carry: install the software, plug in to your device, now you can explore the microscopic world with this microscope camera,metal stand OTG adaptor, ruler,driver& carrying case are provided for multi purpose application
wide range of application :USB microscope is a useful & funny tools for kids ,students, engineers inventors, collectors to magnify the micro things like coins, skin ,PCB, hairs..etc
