

BU-27CG / BU-27CGW (Geophone Clip)

- The BU-27CG (left) is a geophone clip that can be connected to up to 12 AWG wire via crimp or screw connection. The curved jaws open to a maximum of 0.625" (16mm) and are used to clip on to seismograph rings. The BU-27CGW (right) is the wider version and has wider jaws for better holding strength.
- Material: Solid copper
- Overall length 2.4" (61.1mm), overall height 0.75" (19.05mm)
- Ratings:
 - Current: 40 Amps
- RoHS compliant
