

Acrylic Shield/Sneeze Guard - Clear Protective Barrier for Office Desk/POS Counter - 35"x45" - For VESA Mounted Monitors - Transparent Safety Cough Shield/Screen - Easy Clean

Product ID: MONPROTECT

This large, clear acrylic shield provides a protective barrier in open concept workspaces and customer-facing environments.

This transparent sneeze guard is the ideal solution for corporate or commercial workplaces where in-person communication is common, and social distancing is required. The desk panel is 35in x 45in x 0.11in in size and weighs 8.3lb (3.76kg), helping to create a large barrier to improve user's protection against sneezes and coughs.

Install this acrylic screen between your single VESA compatible display and your existing monitor mount or stand. The panel moves with your monitor and is compatible with sit-stand desks (when used in conjunction with your mount/stand).

With three vertically stacked (75x75mm or 100x100mm) mounting points you're able to optimize your setup based on your needs. The shield does not require fixation to a desk, counter or ceiling.

Designed with high quality, UV stable material, this guard can withstand long-term exposure to natural and artificial light without compromising the clarity and transparency of the plastic panel. In addition to the safety benefits, the acrylic guard can also be used for your sticky notes or as a dry-erase board. It can easily be wiped down when needed.

For added convenience, the protective shield offers a cable management opening that is large enough to fit your power cables and larger connectors.

This clear sneeze guard is backed by a StarTech.com 10-year warranty and has free lifetime technical support.

Note:

- Range of motion (height adjustment and side-to-side) may be affected depending on current setup and space restrictions
- Please factor in the weight of the acrylic shield (8.3lb/3.76kg) when calculating the weight limitations of your monitor

mount/stand

Certifications, Reports and Compatibility

Applications

- Create a protective barrier at your workstation or desk
- Ideal for open office spaces, commercial or POS environments
- Great for countertops in lobbies, retail or hospitality settings

Features

- **LARGE TRANSPARENT ACRYLIC SHIELD:** Sneeze guard (35x45x0.11", 8.3lb/3.7kg) creates a protective barrier between workspaces; Ideal for corporate office or commercial environments where in-person communication is common
- **USE EXISTING SETUP:** Install shield between a VESA compatible monitor & mount/stand 3 vertical 75x75/100x100mm mounting points to optimize shield positioning & range of motion of mount; Does not require fixation to desk/counter or ceiling
- **HIGH QUALITY:** Designed with UV stable material to ensure constant exposure to natural/artificial light won't affect clarity & transparency of plastic partition; Shipped w/ protective film; Easy to clean; Similar to Plexiglass
- **COMPATIBILITY:** Cough guard comes with various spacers & screw sizes to ensure compatibility w/ most monitors; Spacers can create a gap between monitor & shield for cable management/port connectivity
- **CABLE MANAGEMENT:** Opening on clear panel fits power cables & larger legacy connectors (ie. VGA); Offset to one side so screen can be reversed to suit the user's needs and/or the monitors connection positioning
