

## SAFETY DATA SHEET

## 1. Identification

Product identifier	Dymon® Natural Force® Foaming Degreaser		
Other means of identification			
Part Number	36120		
Recommended use	Industrial Use Only		
Recommended restrictions	None known.		
Manufacturer/Importer/Supplier/ Manufacturer	Distributor information		
Company name Address	ITW Pro Brands 4647 Hugh Howell Rd Tucker, GA 30084 United States		
Telephone Website E-mail	1-800-241-8334 / www.lpslabs.com lpssds@itwprobrands.com	770-243-8800	
Emergency phone number	Chemtrec	1-800-424-9300	
2. Hazard(s) identification			
Physical hazards	Flammable aerosols		Category 1
i nyoloal nazarao	Gases under pressure		Liquefied gas
Health hazards	Serious eye damage/eye irr	ritation	Category 2A
	Sensitization, skin	hallon	Category 1
Environmental hazards	Not classified.		
OSHA defined hazards	Not classified.		
Label elements			
		!>	
Signal word	Danger		
Hazard statement	Extremely flammable aerosol. Contains gas under pressure; may explode if heated. May cause an allergic skin reaction. Causes serious eye irritation.		
Precautionary statement			
Prevention	Keep away from heat/sparks/open flames/hot surfaces No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing gas. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves.		
Response	If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Wash contaminated clothing before reuse.		
Storage	Protect from sunlight. Store in a well-ventilated place. Do not expose to temperatures exceeding 50°C/122°F.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		
Hazard(s) not otherwise classified (HNOC)	None known.		
Supplemental information	None.		

## 3. Composition/information on ingredients

#### **Mixtures**

Chemical name	Common name and synonyms	CAS number	%
Methyl Ester of Soybean Oil		67784-80-9	5 - 10
Alcohols, C9-11, Ethoxylated		68439-46-3	1 - 5
Distillates Petroleum Hydrotreat Light	ed	64742-47-8	1 - 5
d-limonene		5989-27-5	1 - 5
Orange, sweet, ext		8028-48-6	1 - 5
Petroleum Gases, Liquefied, Sweetened		68476-86-8	1 - 5
Sodium carbonate		497-19-8	1 - 5
1-dodecyl, sulfate, sodium salt		151-21-3	0.1 - 1
Alcohols, C12-13, Ethoxylated		66455-14-9	0.1 - 1
Cocamidopropyl Betaine		61789-40-0	0.1 - 1
Disodium Cocoampho Diproprionate		68604-71-7	0.1 - 1
Lauramine Oxide		1643-20-5	0.1 - 1
Sodium Nitrite		7632-00-0	0.1 - 1
4. First-aid measures			
nhalation	Move to fresh air. Call a physician if sympton	ns develon or nersist	
Skin contact	Remove contaminated clothing immediately	and wash skin with soap and v	
Eye contact	eczema or other skin disorders: Seek medical attention and take along these instructions. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.		
ngestion	Not likely, due to the form of the product. In the unlikely event of swallowing contact a physician of poison control center. Rinse mouth.		
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include vision. May cause an allergic skin reaction.		elling, and blurred
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and tre Symptoms may be delayed.	eat symptomatically. Keep victi	m under observation.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.		
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carl	oon dioxide (CO2).	
Jnsuitable extinguishing nedia	Do not use water jet as an extinguisher, as the	nis will spread the fire.	
Specific hazards arising from he chemical	Contents under pressure. Pressurized contain During fire, gases hazardous to health may be		ed to heat or flame.
Special protective equipment and precautions for firefighters	Firefighters must use standard protective equipace shield, gloves, rubber boots, and in enc		ant coat, helmet with
Fire fighting equipment/instructions	In case of fire: Stop leak if safe to do so. Do to heat. If tank, rail car or tank truck is involve directions; also consider initial evacuation for away from tanks engulfed in flame. Move con Containers should be cooled with water to pr cargo area, use upmanned bose boller or m	ed in a fire, ISOLATE for 800 r r 800 meters (1/2 mile) in all di ntainers from fire area if you ca event vapor pressure build up	neters (1/2 mile) in al rections. ALWAYS st an do so without risk. . For massive fire in

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Cool containers exposed to flames with water until well after the fire is out. In the event of fire and/or explosion do not breathe fumes. Extremely flammable aerosol. Contents under pressure. Pressurized container may explode when General fire hazards exposed to heat or flame.

cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire

burn out.

#### 6. Accidental release measures

6. Accidental release meas	sures
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing gas. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways.
	Large Spills: Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Scoop up used absorbent into drums or other appropriate container. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Close valve after each use and when empty. Protect cylinders from physical damage; do not drag, roll, slide, or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Purge air from system before introducing gas. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Avoid breathing gas. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Keep away from heat, sparks and open flame. This material can accumulate static charge which may cause spark and become an ignition source. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in tightly closed container. Store in a well-ventilated place. Stored containers should be periodically checked for general condition and leakage. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

. . . . .

....

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

U.S OSHA Components	Туре	Value	Form	
Distillates Petroleum Hydrotreated Light (CAS 64742-47-8)	PEL	5 mg/m3	Oil mist	
ACGIH				
Components	Туре	Value	Form	
Distillates Petroleum Hydrotreated Light (CAS 64742-47-8)	TWA	5 mg/m3	Oil mist	

#### **Biological limit values**

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.
Individual protection measure	s, such as personal protective equipment
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.
Respiratory protection Thermal hazards	In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## 9. Physical and chemical properties

Appearance	
Physical state	Gas.
Form	Aerosol.
Color	White.
Odor	Citrus.
Odor threshold	Not available.
рН	10.7
Melting point/freezing point	Not available.
Initial boiling point and boiling range	212 °F (100 °C)
Flash point	135.0 °F (57.2 °C) Pensky-Martens Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Completely soluble.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	8.23
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
Percent volatile	10 %

Specific gravity	0.986 @ 70°F
VOC	9.51 % per US State and Federal Consumer Product Regulations

## 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Carbon oxides.

## 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Dermatitis. Rash.

### toxicological characteristics

#### Information on toxicological effects

Acute toxicity	Not expected to be acutely toxic.
