

SAFETY DATA SHEET

1. Identification

1. Identification		
Product identifier	Dymon [®] Graffiti & Spray Paint Remover	
Other means of identification		
Part Number	07820	
Recommended use	Graffiti Remover	
Recommended restrictions	None known.	
Manufacturer/Importer/Supplier	/Distributor information	
Manufacturer		
Company name	ITW Pro Brands	
Address	805 E. Old 56 Highway	
	Olathe, KS 66061	
Country	(U.S.A.)	
	Tel: +1 800-443-9536	
In Case of Emergency	1-800-535-5053 (Infotrac)	
2. Hazard(s) identification		
Physical hazards	Flammable aerosols	Category 1
	Gases under pressure	Liquefied gas
Health hazards	Skin corrosion/irritation	Category 2
	Reproductive toxicity	Category 2
	Specific target organ toxicity, single exposure	Category 3 narcotic effects
	Specific target organ toxicity, repeated exposure	Category 2 (central nervous system)
	Aspiration hazard	Category 1
Environmental hazards	Not classified.	
OSHA defined hazards	Not classified.	
Label elements		
Signal word	Danger	
Hazard statement	Extremely flammable aerosol. Contains gas un swallowed and enters airways. Causes skin in Suspected of damaging fertility or the unborn	

	Suspected of damaging fertility or the unborn child. May cause damage to organs (central nervous system) through prolonged or repeated exposure.
Precautionary statement	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Do not breathe gas. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.
Response	If swallowed: Immediately call a poison center/doctor. Do NOT induce vomiting. If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If exposed or concerned: Get medical advice/attention. Call a poison center/doctor if you feel unwell. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.
Storage	Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight. Store in a well-ventilated place. Do not expose to temperatures exceeding 50°C/122°F.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.

3. Composition/information on ingredients

Mixtures

Mixtures			
Chemical name	Common name and synonyms	CAS number	%
Toluene		108-88-3	20 - 30
Isobutane		75-28-5	10 - 20
Methyl Ester of Soybean Oil		67784-80-9	5 - 10
Crystalline Silica	Quartz	14808-60-7	1 - 5
Ethylene glycol monobutyl ether	r	111-76-2	1 - 5
Propane		74-98-6	1 - 5
Sorbitan monooleate		1338-43-8	1 - 5
4. First-aid measures			
Inhalation	Remove victim to fresh air and keep at rest center or doctor/physician if you feel unwell.		athing. Call a poison
Skin contact	Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Ge medical advice/attention. Wash contaminated clothing before reuse.		
Eye contact	Rinse with water. Get medical attention if irr	itation develops and persists.	
Ingestion	Not likely, due to the form of the product. Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach conten doesn't get into the lungs.		
Most important symptoms/effects, acute and delayed	Aspiration may cause pulmonary edema and Narcosis. Headache. Nausea, vomiting. Beh irritation. May cause redness and pain. Prole	navioral changes. Decrease in r	notor functions. Skin
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and tr Symptoms may be delayed.	eat symptomatically. Keep victi	m under observation.
General information	IF exposed or concerned: Get medical advice (show the label where possible). Ensure that involved, and take precautions to protect the attendance.	t medical personnel are aware	of the material(s)
5. Fire-fighting measures			
Suitable extinguishing media	Water spray. Water fog. Foam. Dry chemica	al powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as t	this will spread the fire.	
Specific hazards arising from the chemical	Contents under pressure. Pressurized conta During fire, gases hazardous to health may		d to heat or flame.
Special protective equipment and precautions for firefighters	Firefighters must use standard protective ec face shield, gloves, rubber boots, and in end	uipment including flame retarda closed spaces, SCBA.	ant coat, helmet with
Fire fighting equipment/instructions	In case of fire: Stop leak if safe to do so. Do to heat. If tank, rail car or tank truck is involv directions; also consider initial evacuation for away from tanks engulfed in flame. Move co Containers should be cooled with water to p cargo area, use unmanned hose holder or n burn out.	ved in a fire, ISOLATE for 800 m or 800 meters (1/2 mile) in all di ontainers from fire area if you ca revent vapor pressure build up.	neters (1/2 mile) in all rections. ALWAYS sta n do so without risk. For massive fire in
Specific methods	Use standard firefighting procedures and co containers from fire area if you can do so wi water until well after the fire is out. In the eve	thout risk. Cool containers expo	sed to flames with
General fire hazards	Extremely flammable aerosol. Contents und exposed to heat or flame.	er pressure. Pressurized contai	ner may explode whe

6. Accidental release measures

o. Accidental release mea				
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Do not breathe gas. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.			
Methods and materials for containment and cleaning up	Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Use water spray to reduce vapors or divert vapor cloud drift. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways.			
	Large Spills: Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Scoop up used absorbent into drums or other appropriate container. Following product recovery, flush area with water.			
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.			
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.			
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.			
7. Handling and storage				
Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Close valve after each use and when empty. Protect cylinders from physical damage; do not drag, roll, slide, or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Purge air from system before introducing gas. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Do not breathe gas. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.			
Conditions for safe storage, including any incompatibilities	Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Keep away from heat, sparks and open flame. This material can accumulate static charge which may cause spark and become an ignition source. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in tightly closed container. Store in a well-ventilated place. Stored containers should be periodically checked for general condition and leakage. Store away from incompatible materials (see Section 10 of the SDS).			

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Components	Туре	Value	Form
Crystalline Silica (CAS 14808-60-7)	PEL	0.05 mg/m3	Respirable dust.
Ethylene glycol monobutyl ether (CAS 111-76-2)	PEL	240 mg/m3	
		50 ppm	
Propane (CAS 74-98-6)	PEL	1800 mg/m3	
		1000 ppm

Can be absorbed through the skin. US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Ethylene alvcol monobutyl ether (CAS 111-76-2) Can be absorbed through the skin

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provid eyewash station and safety shower.		
Individual protection measures	s, such as personal protective equipment		
Eye/face protection	Wear safety glasses with side shields (or goggles).		
Skin protection			
Hand protection	Wear appropriate chemical resistant gloves.		
Other	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.		
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.		
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.		
General hygiene considerations	Observe any medical surveillance requirements. When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		

9. Physical and chemical properties

Appearance	
Physical state	Gas.
Form	Aerosol.
Color	Light tan.
Odor	Aromatic.
Odor threshold	Not available.
рН	6.3 - 7.3
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	< 35.6 °F (< 2.0 °C) (liquid)
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	125 psig @ 21°C (70°F)
Vapor density	> 1 (air = 1)
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Fully miscible
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

Other information	
Density	0.94 @ 21°C (70°F)
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
VOC	49.6 % per US State and Federal Consumer Product Regulations
10. Stability and reactivity	,
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents. Chlorine. Fluorine. Nitrates.
Hazardous decomposition products	Carbon oxides.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation.
	2-Butoxy ethanol may be absorbed through the skin in toxic amounts if contact is repeated and prolonged. These effects have not been observed in humans.
Eye contact	Direct contact with eyes may cause temporary irritation.
Ingestion	Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.
Symptoms related to the physical, chemical and toxicological characteristics	Aspiration may cause pulmonary edema and pneumonitis. May cause drowsiness and dizziness. Narcosis. Headache. Nausea, vomiting. Behavioral changes. Decrease in motor functions. Skin irritation. May cause redness and pain.

Information on toxicological effects

May be fatal if swallowed and enters airways.

neate tennenty			
Components	Species Test Results		
Toluene (CAS 108-88-3)			
Acute			
Dermal			
LD50	Rabbit	> 5000 mg/kg, 24 Hours	
Inhalation			
LC50	Rat	13 - 29 mg/l, 4 Hours	
Oral			
LD50	Rat	2.6 g/kg	
Skin corrosion/irritation	Causes skin irritation.		
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.		
Respiratory or skin sensitizatio	n		
Respiratory sensitization	Not a respiratory sensitizer.		
Skin sensitization	This product is not expected to cause skin sensitization.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	Not classifiable as to carcinogenicity to humans.		
ACGIH Carcinogens			
Crystalline Silica (CAS 14808-60-7)		A2 Suspected human carcinogen.	
-			

Ethylene glycol monobutyl ether (CAS 111-76-2)		A3 Confirmed animal carcinogen with unknown relevance to humans.
Toluene (CAS 108-88-3)		A4 Not classifiable as a human carcinogen.
IARC Monographs. Overall	Evaluation of Carcinogenicity	
Crystalline Silica (CAS 14808-60-7)		1 Carcinogenic to humans.
Ethylene glycol monobutyl ether (CAS 111-76-2)		3 Not classifiable as to carcinogenicity to humans.
Toluene (CAS 108-88-3)		3 Not classifiable as to carcinogenicity to humans.
OSHA Specifically Regulate	d Substances (29 CFR 1910.1	001-1052)
Not regulated.		
US. National Toxicology Pro	ogram (NTP) Report on Carcin	ogens
Not listed.		
Reproductive toxicity	Suspected of damaging fertilit	y or the unborn child.
Specific target organ toxicity - single exposure	May cause drowsiness and di	zziness.
Specific target organ toxicity - repeated exposure	May cause damage to organs	(central nervous system) through prolonged or repeated exposure.
Aspiration hazard	May be fatal if swallowed and	enters airways.
Chronic effects		through prolonged or repeated exposure. May be harmful if nged inhalation may be harmful.
		brbed through the skin in toxic amounts if contact is repeated and e not been observed in humans.

12. Ecological information

Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment		
Components		Species	Test Results
Ethylene glycol monobutyl et	ther (CAS 11	1-76-2)	
Aquatic			
Fish	LC50	Inland silverside (Menidia beryllina)	1250 mg/l, 96 hours
Toluene (CAS 108-88-3)			
Aquatic			
Crustacea	EC50	Water flea (Daphnia magna)	5.46 - 9.83 mg/l, 48 hours
Fish	LC50	Coho salmon,silver salmon (Oncorhynchus kisutch)	8.11 mg/l, 96 hours
Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.		
Bioaccumulative potential			
Partition coefficient n-octa	nol / water (log Kow)	
Ethylene glycol monobutyl et	ther	0.83	
Isobutane		2.76	
Propane Toluene		2.36 2.73	
Mobility in soil	This prod	دری uct is water soluble and may disperse in soil	
•	•	• •	
Other adverse effects	The product contains volatile organic compounds which have a photochemical ozone creation potential.		
13. Disposal consideration	ons		
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Incinerate the material under controlled conditions in an approved incinerator. If discarded, this product is considered a RCRA ignitable waste, D001. Dispose of contents/container in accordance with local/regional/national/internationa regulations.		
Local disposal regulations	Dispose in accordance with all applicable regulations.		
Hazardous waste code	The waste disposal o	e code should be assigned in discussion bet company.	ween the user, the producer and the waste
		aste Flammable material with a flash point <1	140 F

D003: Waste Reactive material

Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

14. Transport information
