RS PRO LCD Smart Soldering Station 60 W

Temperature adjust knob Power Switch On

60 W Soldering Iron

Specifications

Model Number	124-4132
Plug Type	B and C
Primary Application Category	Soldering
Input Voltage	220 V - 204 V
Output Power	60 W
Maximum Operating Temperature	480 °C
Minimum Operating Temperature	200 °C
Number of Outputs	2 (Iron and USB Output)
Display Type	LCD
ESD Safe	10⁶~10¹⁰
Height	106 mm
Width	150 mm
Depth	180 mm
Weight	1.75 kg

Features:

Temperature reading can be changed to Fahrenheit or Centigrade

Temperature calibration function

Auto sleep and wake, system lock, and tip calibration functions

Large screen with backlight

LCD brightness and contrast are adjustable

Start Up: 0 to 325 °C in 45 seconds

Designed with functional scroll temperature control dial for easy setting

Comes with high end alumina ceramic heating element for fast heat recovery With inbuilt data storage memory, store and recall 3 frequently used temperatures USB

5V/1A power output

Built-in DC 5V/1A USB port for power supply

Separate iron stand

Complies with CE & ESD standards. RoHS Compliant.

Contents List

Soldering Station

Soldering Iron

Iron Holder (with sponge)

Manual

2 x Power Cord (UK Type G Plug and Euro Type F

Plug) Alligator Clip

Grounding Wire

User Manual

Soldering Tip: Conical

Replacement Accessories:

	Description	Type	Size	Tip Dimensions (mm)
 7998973	Soldering Tip, Chisel, 0.094 in/2.4 mm	Chisel	0.094" (2.4 mm)	
 7998976	Soldering Tip, Conical,	Conical	0.008" (0.2 mm)
