

- > **Monitor pressures in compressed air systems for optimum efficiency**
- > **Triple calibrated scale indicates pressure in psi, bar, and Mpa)**
- > **Back or bottom connection**
- > **Panel mount, stainless steel, and Underwriters Laboratories, Inc. listed gauges available**
- > **Compliant with RoHS 2 Directive 2011/65/EU materials requirements**

### Technical features

**Medium:**

**Fluid:**

Compressed air and inert gasses  
 Maximum pressure: 100% of full scale on gauge

**Operating temperature:**

-30° to 175°F (-34° to 80°C)\*

\* Air supply must be dry enough to avoid ice formation at temperatures below 35°F (2°C).

**Accuracy:**

2% of full scale at midrange  
 3% of full scale at other ranges

**Materials**

**Body:**

Standard: Gauges may have a steel or plastic body  
 Optional: Stainless steel

**Crystal:**

Standard steel and plastic bodies have plastic crystal  
 Optional stainless steel body has glass crystal

**Connector:**

Standard steel and plastic bodies have brass connector  
 Optional stainless steel body has stainless steel connector

Ordering information, black face gauges - psi outer scale, bar middle scale, Mpa inner scale

Warning

Improper selection, misuse, age or malfunction of components used in systems can cause failure in various modes. The system designer is warned to consider the failure modes of all component parts and to provide adequate safeguards to prevent personal injury or damage to equipment or property in the event of such failure modes. System designers and end users are cautioned to consult instruction sheets and specifications available from the factory. The system designer/end user is responsible for verifying that all requirements for the application are met.

Warranty

The products described herein are warranted subject to seller's Standard Terms and Condition of Sale, available at seller's website.

**Proposition 65:** These products may contain chemicals known to the state of California to cause cancer, or birth defects, or other reproductive harm.
