

302-N(-HDS)

Socket terminal strip
Screw connection, low profile version

The socket terminal strip 302-N, low version in 8 mm pitch, is available with 1 to 12 poles.

The lower version (by 3 mm) is well suited for applications where mounting space is limited (e.g. in plastic boxes where longer clearance and creepage distances are not required).

The flexible polyamide moulding can even be mounted on curved surfaces.

The wire protector of the "HDS"-version reliably prevents damage to multi-wire flexible conductors by the turning screw.

Options / Accessories

- Marking options on the screw guides
- Marking strips BST-302
- Jumper 302-J
- Screws made out of brass
- Up to 26 poles possible
- Socket with blind hole
