## Inch size Rotary One-touch Fittings **Standard Type**

# KS Series

**Applicable Tubing: Inch Size** 

Low-torque rotation type rotary One-touch fittings

Applicable to use for oscillating and rotating sections in robots.

Applicable to non-copper type (With electroless nickel plated)

Thread sealant is standard.

| Tubing material | FEP, PFA, Nylon, Soft nylon, Polyurethane |
|-----------------|---|
| Tubing O.D.     | ø 5/32", ø 1/4", ø 5/16", ø 3/8"          |

#### Specification

| Fluid                         | Air  |
|-------------------------------|--|
| Operating pressure range 1)   | -100 kPa to 1 MPa  |
| Proof pressure                | 3 MPa  |
| Ambient and fluid temperature | -5 to 60°C (No freezing)                                   |
| Thread                        | ANSI/ASMEB1. 20. 1 (NPT thread)<br>JIS B 0212 (UNF thread) |

Note 1) Do not use the fittings with a leak tester or for vacuum retention because they are not guaranteed for zero leakage.

Also, when using in a vacuum, grease may enter the inside due to the nature of its construction.

### Rotating Torque/Allowable Number of Rotations

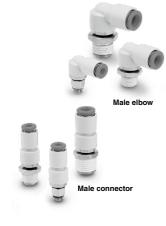

| Applicable tubing O.D.                  | ø5/32" | ø1/4" | ø5/16" | ø3/8" |
|---|--------|-------|--------|-------|
| Rotating torque (N·m) (2)               | 0.006  | 0.012 | 0.014  | 0.020 |
| Allowable number of rotations (S-1) (3) | 8.3    | 8.3   | 6.7    | 5     |

Note 2) Rotating torque under pressure 0.5 MPa

Note 3) Do not use the fittings with a leak tester or for vacuum retention because they are not guaranteed for zero leakage.

#### Principal Parts Material

| Principal parts                        | KS Series  |
|--|--|
| Body                                   | PBT  |
| Stud, Holder, Guide                    | Stainless steel 304, C3604 (With electroless nickel plated), PBT |
| Chuck, Retainer                        | Stainless steel 304  |
| Collet, Release button, Retaining ring | Polyacetal   |
| O-ring, Packing                        | NBR  |
| Rotary seal                            | NBR  |
| Slide bearing                          | Oil-containing polyacetal  |
| Scraper                                | _  |
| Ball bearing                           | Bearing steel  |
| Gasket                                 | Stainless steel 304, NBR   |

## 

Be sure to read this before handling the products.

Refer to back page 50 for Safety Instructions and pages 13 to 17

for Fittings and Tubing Precautions.

## **.** Caution

Implement the tube piping in such a way that lateral load should not be applied on the ball bearings at the rotating part, otherwise it may adversely affect the life expectancy.

A flexible polyurethane tube is recommended when lateral load is applied.

- Do not use in an environment where it will be exposed to water.Contact with water will cause outflow of the lubricating oil used in the ball bearings, and adversely affect rotating performance and equipment lifespan.
- 3. Fluorine based grease is used on the rotating portions.
