

### Description

The 409B *Electrosolve™ Contact Cleaner* is a very fast drying and zero residue contact cleaner. It is effective at dissolving oils and non-polar residues, and for assisting with the removal of oxidation using a brush. It cleans connectors, contacts, circuit breakers, microprocessors, and LED and PCB components.

### Features and Benefits

- **Suitable for Use in Food Facilities as a Non-Food Chemical**—Canadian and NFS recognition letters available on request
- **Safe on many plastics**
- **Zero residue**
- **Fast evaporation rate**
- **Dissolves oils and residues**
- **RoHS compliant**

**ATTENTION!**  
**Do NOT use on live circuits.**  
For use on equipment that will not tolerate aqueous cleaning solutions. Not for use in direct contact with food.

## Compatibility

**Substrate Compatibility:** Consult 409B partial compatibility chart table for substrate compatibility. It is always recommended to perform a compatibility test on a non-critical test area prior to large scale applications. Perform this test even if the chart predicts high compatibility since modern plastic parts may incorporated hidden incompatible materials in the form of plastic blends or as protective and decorative coatings.

### Compatibility Chart

<i>Plastic type</i>	<i>Resistance</i>
Epoxy	Very Good
ABS (acrylonitrile butadiene styrene)	Poor
PMMA (Acrylic)	Good
PVC (Polyvinyl chloride)	Good
HD-PE (high density polyethylene)	Good
LD-PE (low density polyethylene)	Partial
PP (polypropylene)	Good
PS (polystyrene)	Partial
PC (Polycarbonate)	Poor

### **ATTENTION!**

Use with care on thin plastics or near parts that are chemically sensitive.

**Solvent Miscibility:** The 409B is generally miscible organic solvent, but it is immiscible with water.

## Health, Safety, and Environmental Awareness

Please see the 409B **Safety Data Sheet** (SDS) for more details on transportation, storage, handling and other security guidelines.

**Health and Safety:** This liquid is highly flammable and should be kept away from flames and other ignition sources. Avoid breathing in fumes or direct contact with the material.
