Product Overview & Guides

KleenGuard™ Personal Protective Equipment (PPE) enables rather than inhibits – allowing for maximum productivity and safety for you and your employees. When you need low-cost eye protection from a trusted brand, KleenGuard™ Unispec II Safety Glasses really deliver. They offer wraparound protection to fit over most prescription eyewear, in a metal-free design with screw-less hinges. The clear safety glasses (with clear temples) allow maximum visible light transmission, which is ideal for indoor use. This model has hard coated lenses for scratch resistance and longer life. The polycarbonate lenses provide 99.9% UVA/UVB/UVC protection. They meet the ANSI Z87.1+ standards for impact and are TAA compliant. When you want to give your workers wraparound eye protection at an economical price point, the KleenGuard™ Unispec II glasses are a smart choice. Making the right Personal Protection choice is difficult. Perform with distinction with KleenGuard™ Personal Protective Equipment (PPE).

50 Pairs KleenGuard™ Unispec II Safety Glasses / Case; Clear with Clear Temples; Universal Size (one size fits most)

Low-cost wraparound eye protection fits over most prescription glasses

About KleenGuard™

We understand how workers move, work, stretch and sweat. We call it human-centric engineering. And it's this industry-changing technology that separates KleenGuard® brand protective clothing, eye protection and hand protection from other PPE.
