Aircraft Wheel Chock 500L x 155W x 170H

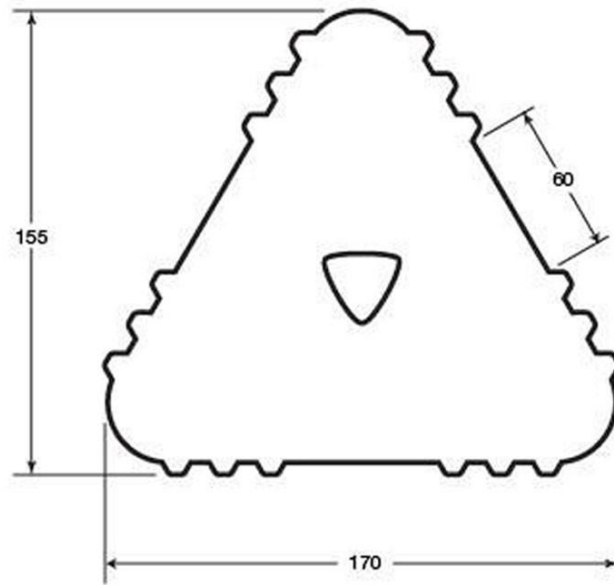

Feature:

A very popular design for use with aircrafts. Each chock is fitted with a double sided rope to make it easier to pull the chock from the aircraft by hand. It is important to adhere to the airline specific guidelines regarding the length and size of the air chock required for each aircraft type.

Safety notice - Only select the appropriate wheel chock according to the type and size of your vehicle. Wheel chocks should be used in pairs and applied only when the vehicle has come to a complete standstill. It is paramount the end user tests the product and ensures it is suitable for the application requirement.

Physical Properties	Unit	Value
Colour	-	Black
Material	-	NR/SBR
Hardness	Shore A	75
Length	mm	500
Width	mm	155
Height	mm	170
Weight	kg	9
Maximum Temperature	°C	70
Minimum Temperature	°C	-15
Elongation at Break	%	200
Tensile Strength	MPa	4
