

Datasheet

RS PRO Two Port HDMI Switch

Stock number: 236-9133

EN

The RSPRO Two Port HDMI Switch routes High Definition video and digital audio from any of the two connected sources to display unit. Two inputs accommodate the simultaneous connection of up to two video sources, such as satellite systems and HD DVD players. The output sends the video signals to the display.

- Switch easily between any two HDMI sources
- Extends the range of HDMI compliant device by equalizing and re-clocking the HDMI signal
- Supports resolutions up to 1080p

PCB UL approved UL file number E12399

RoHS / REACH / CE / UKCA
