

# BI3U-S12-AP6X **Inductive Sensor**

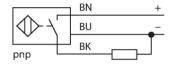

### Technical data

| T   | DIOLL CAO ADOV                |
|---|-------------------------------|
| Type                                      | BI3U-S12-AP6X                 |
| ID  | 1634500                       |
| General data                              |                               |
| Rated switching distance                  | 3 mm                          |
| Mounting conditions                       | Flush                         |
| Secured operating distance                | ≤ (0.81 × Sn) mm              |
| Repeat accuracy                           | ≤ 2 % of full scale           |
| Temperature drift                         | ≤ ±10 %                       |
|   | ≤ ± 15 %, ≤ -25 °C v ≥ +70 °C |
| Hysteresis                                | 315 %                         |
| Electrical data                           |                               |
| Operating voltage                         | 1030 VDC                      |
| Residual ripple                           | ≤ 10 % U <sub>ss</sub>        |
| DC rated operational current              | ≤ 200 mA                      |
| No-load current                           | 25 mA                         |
| Residual current                          | ≤ 0.1 mA                      |
| Isolation test voltage                    | ≤ 0.5 kV                      |
| Short-circuit protection                  | yes / Cyclic                  |
| Voltage drop at I <sub>e</sub>            | ≤ 1.8 V                       |
| Wire breakage/Reverse polarity protection | yes / Complete                |
| Output function                           | 3-wire, NO contact, PNP       |
| DC field stability                        | 300 mT                        |
| AC field stability                        | 300 mT <sub>ss</sub>          |
| Insulation class                          |                               |

## **Features**

- ■Threaded barrel, M12 x 1
- Plastic, PA6-GK15
- Factor 1 for all metals
- Protection class IP68
- Resistant to magnetic fields
- ■Extended temperature range
- High switching frequency
- ■DC 3-wire, 10...30 VDC
- ■NO contact, PNP output
- Cable connection

## Wiring diagram

## Functional principle

Inductive sensors are designed for wear-free and contactless detection of metal objects. uprox Factor 1 sensors have significant advantages due to their patented ferritecoreless multi-coil system. They detect all metals at the same large switching distance and are resistant to magnetic fields.

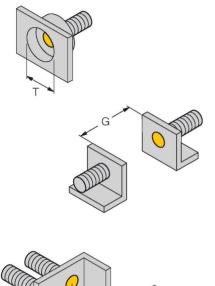

## Technical data

| Switching frequency                   | 3 kHz                                     |
|---------------------------------------|---|
| Mechanical data                       |   |
| Design                                | Threaded barrel, M12 × 1                  |
| Dimensions                            | 54 mm                                     |
| Housing material                      | Plastic, PA6-GK15                         |
| Active area material                  | Plastic, PA12-GF30                        |
| End cap                               | Plastic, EPTR                             |
| Max. tightening torque of housing nut | 1 Nm                                      |
| Electrical connection                 | Cable                                     |
| Cable quality                         | Ø 5.2 mm, LifYY, PVC, 2 m                 |
| Core cross-section                    | 3 x 0.34 mm <sup>2</sup>                  |
| Environmental conditions              |   |
| Ambient temperature                   | -30+85 °C                                 |
| Vibration resistance                  | 55 Hz (1 mm)                              |
| Shock resistance                      | 30 g (11 ms)                              |
| Protection class                      | IP68                                      |
| MTTF                                  | 874 years acc. to SN 29500 (Ed. 99) 40 °C |
| Switching state                       | LED, Yellow                               |

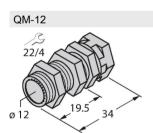

## Mounting instructions

#### Mounting instructions/Description

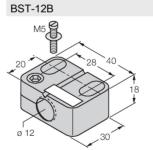

| Distance D             | 2 x B   |
|------------------------|---------|
| Distance W             | 3 x Sn  |
| Distance T             | 3 x B   |
| Distance S             | 1.5 x B |
| Distance G             | 6 x Sn  |
| Diameter active area B | Ø 12 mm |

## Accessories

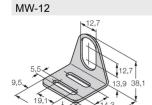

### 6945101

Quick-mount bracket with dead-stop; material: Chrome-plated brass. Male thread M16 × 1. Note: The switching distance of the proximity switches may change when using quick-mount brackets.

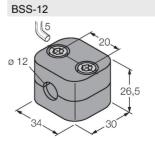

### 6947212

Mounting clamp for threaded barrel sensors, with dead-stop; material: PA6

## 6945003

Mounting bracket for threaded barrel sensors; material: Stainless steel A2 1.4301 (AISI 304)

## 6901321

Mounting clamp for smooth and threaded barrel sensors; material: Polypropylene
